## Abstract

Bringing the power of success back to the teams is paramount to an organization's success. Currently, in most organizations there is a chasm Leaders and teams which needs to be filled by a coach approach to implementation of strong project management principles across the organizations.

The webinar aims at aligning PMO, Leaders and Teams:

- Developing PMs as internal organizational coaches to partner across all levels of the organization to establish a culture of trust and empowerment.
- Creating a Strengths based culture as a tool to enhance productivity.
- Developing strategic PMOs that play an active cross-functional leadership role at the organizational level.
- Designing ongoing training and providing implementation support to create a culture of trust and empower people with EQ building techniques.
